Consumption cured.

Oleanse and strengthen.
Consumption can be cured.

Breachitis, consumption, liver complaint, colds, coughts, catarrh, asthma, spitting of blood, soreness in the chest, hectic flush, night sweats, difficult or profuse expectoration and pain in the side, &c., have, and can be cured.

Probably there never was a remedy that has been so successful in desperate cases of consumption as this. It can be despended to the large, and the patients gradually regain their usual health and strength.

LOST HER SPEECH.

TWO CHILDREN SAVED.

Very few families, indeed—in fact we have not heard of one—that used Dr. Townsend's Sarsaparilla in time, lost any children the past summer, while those that did not, alckened and died. The certificate we publish below is conclusive evidence of its value, and is only another instance of its saving the lives of children?

stance of its saving the lives of children of Mystrix Avenue, Brooklyn, Sept 15, 1847.

Dr. Townsend: Dear sir—I had two children cured by your Sarsaparille of the summer complaint and dysentery; one was only fifteen months old, and the other three years. They were very much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed us that we must lose them, we resolved to try your Sarsaparilla we had heard so much of, but had little confidence, there being so much stuff advertised that in worthless, but we are very thankful that we did, for it undoubtedly saved the lives of both. I write this that others may be induced to use it.

Yours, respectfully,

JOHN WILSON, Jr.

LUNATIC ASYLUM.

James Cammings, esq., one of the assistants in the Luatic Asylum, Blackwell's Island, is the gentleman spoke of in the following letter:

This is only one of more than four thousand cases or rheumatism that Dr. Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues:

Dr. Tewsesso: Dear Sir: I have suffered terribly for nine year with recumstaism; considerable of the time I could not est, sleep, o work; I had the most distressing pains, and my limbs were terribly swellen. I have used four bottles of your Saranarilla and they have done me more than one thousand dollars worth of good—I am so much better. Indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully,

JAMPS CIVALED

That Dr. Townsend's Sarsaparilla is the very best remedy for female complaints, there is no disputing. Thousands and thousands of weak and debilitated females, that were prostrated by those diseases to which females are subject, were soon in the enjoyment of robust health.

subject, were soon in the enjoyment of robust health.

New York, Sept. 23, 1847.

Dr. Townsend: Bear Sir: My wife has for the last year been very sick, and in a greatly reduced state of health, being reduced by a variety of complaints suck as females are liable to. She got so bad at length, that she was entirely unable to walk, and was as helpiess as child. She commenced using your Sarsaparilla, and she immediately began to regain her strength, her complaints left her, and after taking several tottles she is restored. Being a singular case, I have thought it might de good to publish it. She used a number of remodies that did her no good previously. Yours, respectfully.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarseparilla is a sovereign and speedy our for incipient consumption, and for the general pro-tration of the system, no matter whether the result of inhe-rent cause, or causes produced by irregularity, illness, or

accident.

Nothing can be more surprising than its invigorating elfects on the human frame. Persons, all weakness and lastitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause

ness.

Dr. Toweren : My wife being greatly distressed by weakness and general dability; and suffering continually by pain and with other sufficiently, and having known cases where your medicine has effected great circle, and also hearing it recommended for such cases at I have desorfloid; to busined a bottle of your Katract of Straspariille, and followed the directions you gave me. In a short period it removed her complaints, and restored her to health. Being grateful for the benefit she received, I take great pleasure in thus acknowledging it, and recommending it to the public.

M. D. MOORE.

Corner of Grand and Lydius streets.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female, who has reason to suppose he is approaching that critical period—"the turn of life"—should neglect to take it, as it is a befrain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the diseases to which scene is invaluable for all the diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not so far stimulating the system as to produce a subsequent relaxation, which is the case of most medicines taken for female weakness and disease.

DISEASE OF THE HEART, RUPTURE, AND DROPSY.

DISEASE OF THE HEART, RUPTURE, AND DROPSY.

New York, July 22, 1834.

Dr. Townsawn; Dear sir; My wife has been afflicted with a disease of the heart, and with a terrible rupture, for over fifteen yoars. The greater part of the time she has been troubled with shortness of breath and great fluttering of the heart, which has been very disteasing, and has frequently been unable to leave her bed. The rupture was very large and severe. She tried almost every ramady for such cases, with but title benefit. When she had taken but three bottles of your excellent medicine, she was entirely relieved of the disease of the heart, and the rupture has almost entirely disspeared. She has also had the dropay, and was very much swellen. We had no disease. But it has, as strange as it may appear, relieved her of the dropay. I am aware that this statement is so strange as to appear plinost like fiction; but it is, nevertheless, sober reality. Your writagerills is certainly a valuable medicine, and should be used by every one that is suffering as we have been. If any distelleys this account, they are at liberty to call sit my house and have ocular demonstration.

Vours, respectfully.

PROPOSALS, sealed and endorsed "Proposals for freight to the Pacific," will be received at this office until 3 o'clock, p. m. on Friday, the 16th day of June, 1848, for the transportation of 7,000 barrels (more or less) of government stores from the navy-yard at Brooklyn, New York, to the port of Monterey, on the west coast of North America. The offers must state the price asked per barrel, without distinction between wet and dry; and each barrel (or two half-barrels) of beef, pork, flour, rice, vinegar, pickies, whiskey, or dried-apples, will be considered as a barrel; all other packages to be estimated at the rate of 5½ cubic feet to a barrel, whatever they may contain; and, in the measurement of all casks other than barrels, the fifths will be deducted. No freight to be taken on board, or discharged on private account, at any intermediate port; and no primage to be allowed. Fifteen fair-weather working laydays to be allowed at each of the ports of Brooklyn and Monterey for taking in and discharging cargo. Payment to be made by any navy agent in the United States within thirty days after producing satisfactory evidence of the delivery of the cargo. The vessel must pass the usual inspection, and be at the Brooklyn navy-yard by the 26th day of June, 18th, ready to receive her cargo; and, if not presented of casmination within three days after being notified of her acceptance, the bureau will consider itself at liberty to offer the freight to the next lowest bidder, or to make such arrangements as may best subserve the public interests.
